# REMEDIATION

INFRASTRUCTURE REMOVAL / ACCESS ROAD AND LEASE REMOVAL /  
PIPELINE SUSPENSION, ABANDONMENT AND REMOVAL /  
WELL HEAD REMOVAL / PILE REMOVAL / IMPORTING CLEAN FILL / CONTOURING LEASE

When energy producers encounter earth contaminated with hydrocarbons or other chemicals, NuWave can help analyze the remediation challenges and offer a variety of strategies for eliminating the contamination. We have the knowledge, experience, and equipment inventory to direct complex remedial projects involving excavation of large soil volumes.

Services include:

- Soil Excavation
- Transport and Disposal
- Underground Storage Tank Removal
- Flare Pit, Well Site and Pipeline Remediation
- Restoration
- Hydroseeding
- Tree Planting
