Flange Bolt & Tubing Hanger Cutter

FLANGE BOLT & TUBING HANGER CUTTER

DONUT RAM / CASING BOLT

No open flame, fire hazard or hot work permit required

No sloped excavation for personnel to safely enter and exit the site

No confined space requirements

No Risk to Personnel

More Efficient

Rusted Flange bolts

- NuWave's Flange Bolt cutting tool can be rigged around any size well head
- Rotating horizontally in a 360 degree motion, severing the well head bolts one at a time for replacement or in succession to remove the Christmas tree

Tubing Hanger

- If the Donut Rams inside the well head flange are seized NuWave repositions the cutting tool to cut at a 90 degree angle making a vertical cut inside the flange
