SCAFFOLDING / BUNDLE AND FIRE TUB REMOVALS / RISER CONSTRUCTION AND
MODIFICATIONS / PIPING AND FLOW LINE / CERTIFIED WELDING PROCEDURES / HIGH
TORQUE

NuWave's construction and installation crews are highly skilled, with extensive training and field experience on construction projects of all scopes and scales. We serve clients throughout Western Canada — British Columbia, Alberta, Saskatchewan and Manitoba—and are familiar with the challenges associated with the regional landscape.

NuWave offers a full complement of maintenance services, provided by staff who are constantly mindful of both efficiency and safety.
